

Hello,

In order to send photos and videos about the 50 years of history of the DSN, we recommend the use of the **inter[Cambio] (Exchange) Service** provided by the Universitat Politècnica de València (UPV). This service has been implemented as a solution to the limitations of traditional e-mail with big size file attaching. The process to send a file is very easy.

First, connect to the service using the following link and **enter as a guest**:  
<https://intercambio.upv.es/index.php?lang=en&upv=>

The screenshot shows the website for the inter[Cambio] service. At the top left is the logo of the Universitat Politècnica de València. At the top right is the inter[Cambio] logo. Below the header is a navigation bar with links for 'Idioma / Language', 'Tipografía', 'Ayuda', and 'Normativa'. A breadcrumb trail shows '>> Inicio UPV :: Intercambio'. The main heading is 'Intercambio'. Below this is a section with an icon of two arrows and a text box explaining the service: 'The Intercambio Service by the Universidad Politècnica de Valencia has been born as a solution to the limitations of traditional e-mail when it comes to big size file attaching.' Below this is a paragraph: 'With this service u can send and receive files up to 2 GB as long as the sender or receiver has a UPV e-mail address.' There are two main options: 'UPV users access' and 'Enter as a guest'. The 'Enter as a guest' option is highlighted with a red circle and a red arrow pointing to its 'Enter' button. Below these options are two warning messages: 'WARNING: The maximum file size is 2 GB. All files will be removed 20 days after having been uploaded. Don't send several files at the same time.' and 'If you have any problem, please contact the service administrator.' At the bottom, the footer reads 'Universidad Politècnica de Valencia'.

### Intercambio

The Intercambio Service by the Universidad Politècnica de Valencia has been born as a solution to the limitations of traditional e-mail when it comes to big size file attaching.

With this service u can send and receive files up to 2 GB as long as the sender or receiver has a UPV e-mail address.

**UPV users access**

You may use this option if you are a member of the University. Use your login and password, and you will be able to send files to any e-mail address.

**Enter as a guest**

For not University members. If you access using this profile you will only be able to send files to UPV e-mail address receivers.

**WARNING:** The maximum file size is 2 GB. All files will be removed 20 days after having been uploaded. Don't send several files at the same time.

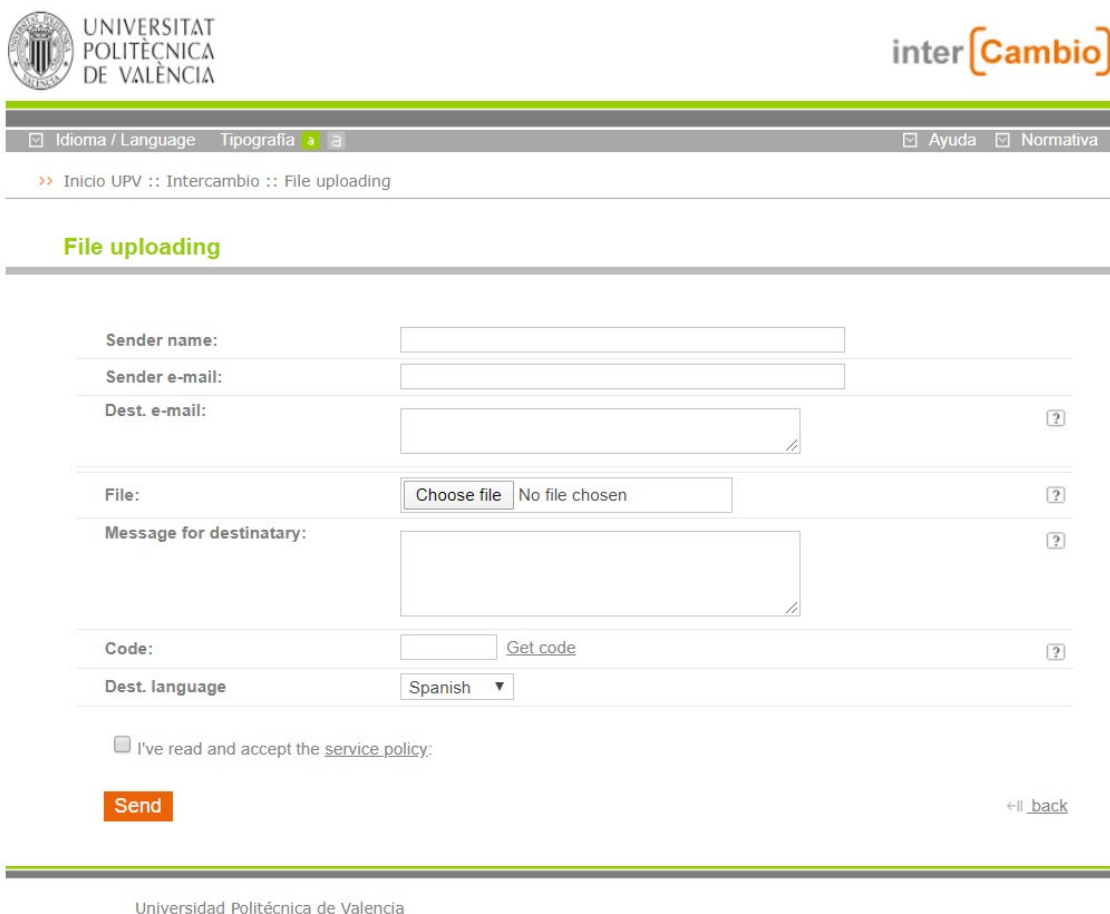

If you have any problem, please contact the service administrator.

Once within the guest option, you must fill in the following form (see figure below):

- Sender Name: you name.
- Sender e-mail: your email.
- Dest. e-mail: [jgracia@disca.upv.es](mailto:jgracia@disca.upv.es)
- File: The file to send. This service sends a single file of up to 2 GB. So, all photos and videos to send must be in a single compressed file.
- Message for destinatary: If possible, information about what to find in the uploaded file (i.e. DSN year).
- Code: a code that permits sending the file. This code is obtained using the “**Get code**” link. The service will send to the Sender e-mail a code to be inserted in this text field.
- Check “I’ve read and accept the service policy”.
- When all fields are completed, by pressing the send button, the file is sent.

If you have any doubt or question, please send an email to [jgracia@disca.upv.es](mailto:jgracia@disca.upv.es)
